## Education

---

B.S. Major: Psychology  
2022-2024 Southern Utah University

A.S. General Studies  
2020-2022 Snow College

## Research Experience

---

Research Assistant January 2026 - Present  
Brigham Young University  
Provo, UT

### *Nielson Lab: Lesion Network Mapping*

- In the Lesion Network Mapping Project, we look at similarities in location of lesion and traumatic brain injury and correlations of symptoms and behaviors. Conducted through literature analysis, data analysis, and overall correlational findings.

Research Affiliate/Post Baccalaureate September, 2025 - Present  
University of Utah  
Salt Lake City, UT

### *Immersive Neuromodulation and Neuroimaging (INMAN) Lab*

- The INMAN lab observes how navigational tasks affect learning and memory. Responsibilities are as follows: present research and dissect findings, attend research symposiums and professional conferences, assist with eye tracking and psychometric assessment data, and assist with experimental trials with participants.

Research Assistant  
University of Utah  
Salt Lake City, UT

June, 2025 - Present

*The Neuropsychology Lab: Spanish DAILIES*

- The Spanish Daily Assessment of Independent Living and Executive Skills (DAILIES) is a study where we observe tasks being performed solo, and how factors in people's everyday lives affect cognition. This is mainly observed in Spanish speaking populations. My responsibilities are Oura data tracking, daily survey assessment tracking, assembling baseline packets, creating envelopes with data collection documents for participants, and data entry.

Student Researcher Associate  
Southern Utah University  
Cedar City, UT

Spring Semester, 2024

*Electrifying Video: The Effect on Brain and Body.*

- Assisted a student with their independent research capstone project. I assisted in collecting skin conductance, heart rate, and heart variability data to measure physiological responses to neutral, positive, and aggressive lyrics in music videos. The study was supervised by Dr. Lynn H. White in the Department of Psychology at SUU.

Presentations

**Campbell, J.** Cowan, C., Meehan, A., Ascher, D. (2023). *Perceptions on Immigrants Living in America*. Presentation at the Southern Utah University Psychology Department's Research Symposium. Under the supervision of Dr. Lynn H. White.

- Presented a study on Utah students' perceptions of immigrants residing in the United States, designed by Dr. Lynn H. White. My fellow students and I were responsible for data analysis, creating, and disseminating a PowerPoint presentation of the findings.

## Publications

**Campbell, J.** (2025). The effectiveness of EMDR therapy in treating anxiety, PTSD and psychosis; A literature review. *Southern Utah University Journal of Psychological Sciences*, 7, 29-35.

**Campbell, J.** (2025). Dissociative identity disorder diagnostic review, evidence of validity, and case studies. *Southern Utah University Journal of Psychological Sciences*, 7, 17-22.

## **Employment History**

---

Tutor/Outreach Mentor August 11, 2025- Present  
GEAR UP - Utah Valley University  
Orem, UT

- Assists students with their academics and tutors various subjects. Gives presentations on college readiness, life skills and strategies to improve as a student. Focuses on low income populations and guides students with college preparation and transition. Works with underserved populations and makes a difference in students' lives.

Simulation and Lab Assistant September 2024 - August 6 2025  
Joyce University of Health and Nursing Sciences  
Draper, UT.

- Assisting the instructors in emulating simulation scenarios, creating moulage, assisting with skills labs, and using LLEAP and Gaumard technology. Restock and clean simulation and skills lab rooms, and collaboration among the simulation department. Observed student behavior and performance alongside instructor in controlled environment.

## Service Activities

---
